Importance: High

Hi all,

Lek has weighed in and is inclined to move the report to congress out quickly, rather than hold it and wait for the multi-year agenda. He wants to know when we could pass it along. Here are the outstanding issues:

Ex. 5 Deliberative Process (DP)

I've attached the track changes version of the report to congress that we sent to OMB, along with a clean version if anyone wants to take a last look. No edits unless you identify serious show-stoppers.
